Jen Weber

Web Developer

E: j@jenweber.me   Medford, Massachusetts

jenweber.me   github.com/jenweber   linkedin.com/in/JenMWeber

Summary

As a full stack web developer with a background in business partnership management, I excel at project planning and organization. I can keep myself and my teammates on track to create interactive, creative, and clean web apps that meet client expectations.

Skills

- JavaScript
- Ruby
- JQuery

- Git/Github
- HTML
- CSS

- Bootstrap
- Handlebars
- Ember

- Rails
- Salesforce.com
- Express

Education

General Assembly, Web Development Immersive   **Jan –April 2016**

During a 12-week bootcamp, I created full stack web applications such as:

<u>Tic Tac To the Elections</u>
My first web development project ever, a front end, single page app. Features creative visual design.

<u>The Fridge File Storage</u>
A full stack, deployed single page web app, using MongoDB api and uploading to Amazon Web Services S3.

University of Cincinnati, B.S. in Biology, concentration in Ecology   **2010**

Awarded outstanding graduating senior in the Biology department

Experience

Next Step Living, Boston, MA   **Aug 2012 – Dec 2015**

I worked my up way from an entry level role to managing a major business partnership:

Division Trainer and Partnership Manager
Managed the company's relationship with NRG Home Solar and coached remote call centers, doubling their performance. (4 months)

Inside Sales Trainer
Trained 100 employees in sales and Salesforce.com (9 months)

Community Outreach Coordinator
Organized 1500+ sustainability events for a team that generated 13,000 customer leads (2 years)

Outreach Event Representative
Traveled to community events, and pitched energy efficiency services (4 months)

Americorps for Cornell Cooperative Extension, Cortland, NY   **Nov 2010-June 2012**

Wrote and delivered 4-H afterschool science programs.
